Office Action Summary

Art Unit: 1754

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 24 and 25 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. These claims do not limit the product.

Claims 26, 29-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Loutfy.

Loutfy teaches in columns 5 and 7 C60 powder admixed with silver and pressed.

The reference does not exemplify the claimed features, but suggests them among a host of choices; Ni is taught as a standard battery element and fullerenes are recited. Thus, forming the claimed mixtures represents an obvious selection of materials.

Applicant's arguments filed 6/30/03 have been fully considered but they are not persuasive. Claim 26 is not limited to the atomic percent of metal.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
